

General

The NavInc cable adaptor allows for connecting audio/video sources to the original navigation system of Mercedes.

The adapter ensures that an input is created on the original navigation system, on which one audio/video sources can be connected (e.g. DVD player, DVB-T TV, iPod, etc.). The images will be displayed on the navigation screen. The audio of the video sources will be played in stereo through the original audio system of the car.

Features:

- 1x Audio/Video input
- PAL/NTSC support
- Plug & play cable kit

The following is provided in the set:

- NavInc cable adaptor
- Plug & play cable kit
- Installation- and user manual
- Warranty
- Invoice

Additional information:

- Check at the tab "compatibility" on top of this page if your radio or navigation system is suitable for this product.
- For image retention while driving use the TF-MB-NTG3
