

General

The NavInc interfaces allow for connecting video sources to the original SYNC2 system of Ford.

The interface ensures that an input is created on the original navigation system, on which various external video sources can be connected (e.g. DVD player, DVB-T TV, iPod, reversing camera, etc.). The images will be displayed on the navigation screen. The audio of the video sources must be submitted via an AUX input or FM modulator.

Features

- 3x Audio/Video input (connect video sources, TV / DVD / iPod)
- Camera input (connecting reversing camera)
- Front camera input
- NTSC support
- Image retention while driving

Activation

It is possible to switch between the video sources with the delivered button and/or remote control or through the steering wheel button:

Sound button

Sound button short: back to OEM

Sound button long: toggle between AV1-AV2-AV3

Camera function

Via the camera input of the interface an aftermarket camera system can be connected to the navigation system. The camera image will be displayed automatically on the screen when the car is put in the reverse gear.

Front camera function

Via the front camera input of the interface an aftermarket front camera system can be connected to the OEM system. .

The following is provided in the set:

- NavInc Video interface
- Cable set
- Installation- and user manual
- Warranty
- Invoice

Product specifications

Voltage: 12V – 24V DC

Voltage-operating capacity: 8 – 18V DC

Standby current: 0 mA

Operating current: 5 Watt max.

Power input: 12V

Temperature range: - 30°C up to + 80°C

Weight: 250grs

Dimensions(W x H x D): 130 x 20 x 102mm

Additional information:

- Check at the tab “compatibility” on top of this page if your radio or navigation system is suitable for this product.
- Audio of the connected video source must be linked to the AUX input of car, FM modulator, USB or iPod interface.
- No constant voltage needed (+30) therefore the interface is much more stable.
- “Mute” function for the video inputs which are not used.
- Use of a metal casing and new components (not Chinese or remanufactured components).

Legal information:

The driver of the vehicle should not be inferred from the motion images. In many countries, watching movies while driving is prohibited. Therefore we accept no responsibility for material or personal injuries, directly or indirectly, due to installation of the interface modules.

Interface and Software basic information:

The NavInc interfaces are no navigation systems or screens to replace the navigation system. The NavInc interfaces enable the possibilities to connect different Audio/Video sources to the navigation system.

Manufacturers create adjusted software and hardware versions, options and enhancements which ensures that the compatibility of the products cannot be guaranteed 100%. Compatibility lists are based on customer feedback and

experiences and will constantly be updated for optimal customer support.

Compatible for the following models

Ford

Focus*	2014-201>
Edge	2013-2016
Expedition	2015-2016
Explorer	2014-2016
F150	2013-2016
Fiesta	2014-2016
Flex	2014-2016
Fusion	2013-2016
Mondeo	2013-2016
Mustang	2015-2016
Super Duty	2015-2016
Taurus	2014-2016
Transit Connect	2014-2016

Remarks:

- Only in combination with Ford SYNC2 - 8 inch with U-board
- AUX-output of the interface needs to be connected with AUX input of the car.
- Automatic switching to camera on navigation level via CAN-BUS
- Screen must be opened for installation.
