
DESCRIPTION

This interface enables to connect an external audio source, such as an iPod / MP3 player / DVD player / Telephone, to the MMI system of Audi. The audio input will be displayed as an optical AMI.

Input of the interface is 2x RCA (audio RCA left & audio RCA right) and integrated Bluetooth. The analog signal will be converted to an optical audio signal (fiber optic) which makes sure the audio quality is equal to an original CD changer.

Features:

- Connection via MOST (fiber optic)
- Audio Bluetooth streaming via A2DP
- Skip numbers via MMI button (Bluetooth)
- Display of track info
- Audio in stereo
- Activation of adapter via optical CD7 in changer menu
- Audio input: 2x cinch connection

PACKAGING

The following will be supplied:

- Audio interface BT2-AUDI-3G
- Installation manual
- 2 years warranty
- Invoice

NOTES

- Check at 'Compatibility' tab if your radio- or navigation system is suitable for this product.
- It is not possible to connect iPod and AUX source (via AUX input) at the same time. When using the AUX input you have to disconnect the iPod.
- Interface is CE and FCC certified.
