  - We recommend that the installation will be performed by a qualified specialist
  - Check the other tabs for "Compatibility" - "Package contents" - "Product specifications"

### COMPATIBILITY

---

## CAR

This kit is universal and works with ignition feed 12V

## REQUIREMENT

---

<b>AUDIO OUTPUT</b>	The interface inserts ONLY video signals into the infotainment. It is essential to have an Aux-in, when using audio from an external AV source.
<b>CVBS</b>	Only compatible with NTSC sources.
<b>LVDS</b>	LVDS input is compatible with NAVplay & APPplay module
<b>SCREEN</b>	This kit works with 12V ACC
<b>FRONT CAMERA</b>	The front camera input will automatically switch after leaving the reverse gear. You can set the display time in seconds via the OSD menu (1-15 sec). It is also possible to select the FRONT camera input manually
<b>OEM REAR CAMERA</b>	Not supported
<b>GUIDELINES</b>	Static lines are available via the interface OSD menu
<b>PIP</b>	Not supported
<b>REAR SELECT CAMERA INPUT</b>	Rear camera input works via a 12V reverse trigger wire
<b>INSTALLATION</b>	We recommend that the installation will be performed by a qualified specialist
<b>EXTRA NOTE</b>	Please check if you need the optional bracket
