REQUIREMENT

,	
AUDIO OUTPUT	The interface inserts ONLY video signals into the infotainment. It is essential to have an Aux-in, when using audio from an external AV source.
CVBS	Only compatible with NTSC sources.
LVDS	LVDS input is compatible with NAVplay & CARplay module
SCREEN	Interface is compatible with 6.5" & 8.8"
FRONT CAMERA	The front camera input will automatically switch after leaving the reverse gear. You can set the display time in seconds via the OSD menu (1-15 sec). It is also possible to select the FRONT camera input manually
OEM REAR CAMERA	The interface does not switch back automatically to the OEM rear camera input when the reverse gear is engaged.
GUIDELINES	iPAS & Static lines are available via the interface OSD menu
PIP	We recommend that the installation will be performed by a qualified specialist

^{*}Rear select via CAN-BUS only available with automatic gearbox

^{*}For manual gear please use CAN-BUS interface for reverse gear signal.

	Interface will respond on CAN for cars with auto gearbox. When manual gear box please use the rear detection wire.
INSTALLATION	We recommend that the installation will be performed by a qualified specialist
