## **EXCLUSIVE INTERFACE FEATURES**

---

### **CONNECTIONS**

The NAVmusic BT module has different way to connect to your radio- navigation system.

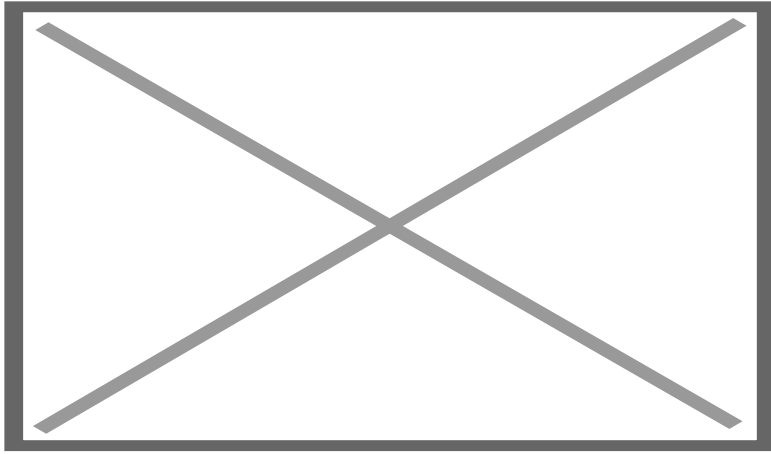

There are two audio output connections:

- 1: via cinch connectors (RCA-female)
- 2: via jack 3.5mm (AUX connector - male)

There are two power connections:

- 3: via USB (male 5V) – plug and play
- 4: Open wires (ACC & GND) - so you can hide the module

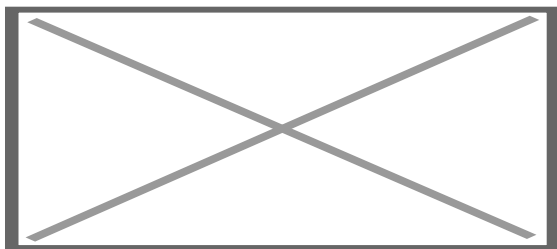

You can pin out the connections you don't use.

## VOLUME ADJUSTMENT

The NAVmusic BT module also has a Volume option so you can fine tune the audio with your radio- navigation system.

Function	Dipswitch 1	Dipswitch 2
Sound -6dB	ON	ON
Sound 0dB	OFF	ON
Sound +1dB	ON	OFF
Sound +6dB	OFF	OFF

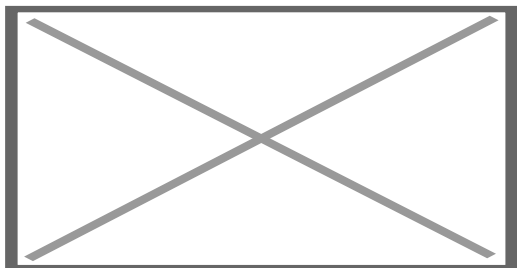

## LED INDICATOR

The NAVmusic BT module has a LED indicator to indicate the status of the module.

Led status	Function
Red & blue blinking	NAVmusic is booting
Blue blinking	Searching for device

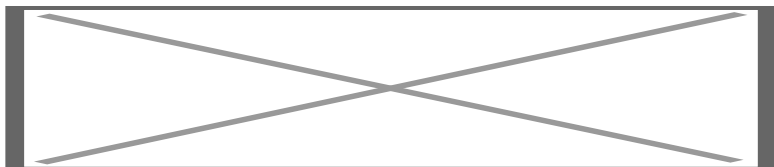

Red permanent	Phone paired
---------------	--------------
