

PARDUS Power Pedal Pro 3.0 - kit

Art. Nr: PAR-FCI-KIT

PANTHERA PARDUS

PEDALTUNING

DESCRIPTION

The new PARDUS PRO 3.0 POWER PEDAL for improved acceleration and a more agile response. With the innovative accelerator tuning from Panthera you can choose from seven different driving profiles - from valet mode to race mode to track mode.

In addition to the driving profiles, the new accelerator tuning has a lock mode. This mode protects you against theft with the help of a complete deactivation function of the accelerator pedal by entering a password.

The new module is also ideally suited for use with naturally aspirated engines.

Features

- Better acceleration
- Faster response
- 8 profiles different profiles
- Pedal "Lock" Mode included
- APP control
- Easy installation with Plug and play connectors
- TÜV approved
- Highest Quality
- Support the latest SENT Technology

EXCLUSIVE FEATURES

Driving profiles and lock mode at a glance:

1. Kids mode - extreme reduced response
2. Vallet mode - very reduced response
3. Eco mode - consumption-optimized response
4. Sport mode - slightly increased response
5. Race mode - increased response
6. Race + mode - strong increased response
7. Track mode - maximum response
8. Lock mode - protection against theft

The seven driving profiles of the PARDUS PRO 3.0 Power Pedal can also be modified with 4+ and 4- fine tuning levels.

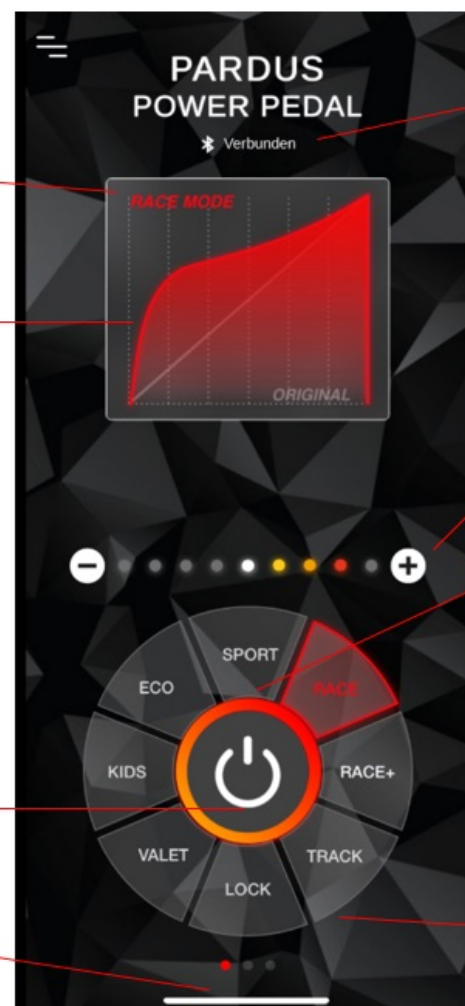

Profile fine adjustment

Each driving profile can also be reduced or reinforced by 4 steps.

POWER PEDAL APP

Driving profiles and lock mode at a glance:

Status display
Indicates whether the app is connected to the vehicle.

Profile name
Displays the name of the currently selected profile

Profile details
Shows the mapping of the accelerator pedal tuning. Color-optimized characteristic curve, gray original characteristic curve for comparison

Profile fine adjustment
Each driving profile can be reduced or reinforced by 4 steps.

On / Off
Key to completely deactivate or activate the accelerator tuning module. The accelerator is off back to series production

Screen Indicator
Shows which screen you are currently on

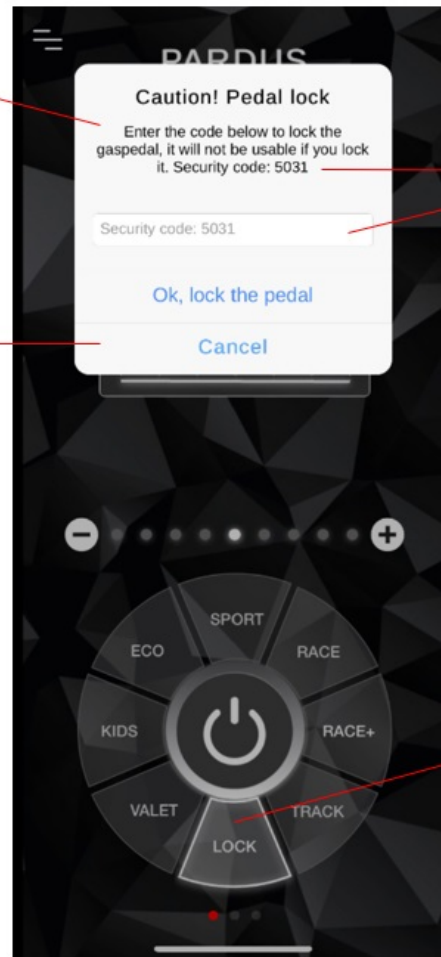

Currently selected profile
Seven different profiles:
1. Valet mode
2. Kids mode
3. Eco mode
4. Sport mode
5. Race mode
6. Race + mode
7. Track mode
8. Lock mode (with your own profile, unintentional)

* PARDUS Power Pedal

Hidden profile
If hidden profile is supported, it will be shown in your version of the app.

Pedal lock in „Lock“ mode
Here, the accelerator pedal can be completely deactivated to protect the vehicle from unintentional use. The vehicle can be started, but the throttle response is deactivated in „Lock“ mode

Ok, lock it now
Locks the accelerator pedal
Abort
Return to the previous driving profile

Security code
Enter the code

ATTENTION
When activated, the vehicle will not start. After ending the vehicle, the instrument cluster will show a warning.

PLUG & PLAY

Plug and play installation with the Highest quality connectors.

- Step 1. Unplug the accelerator pedal on your vehicle.
- Step 2. Connect the plugs to the ports on the Pardus Power Pedal.
- Step 3. Place the connectors and the Pardus Power Pedal in a suitable location.
- Step 4. Start the engine and connect the Pardus Power Pedal to the Panthera Connect app on your smartphone

EASY INSTALLATION PLUG & PLAY
