

J series EVA protection case (for J401,402,J1000,J1500,J2500)

Art. Nr: LOK-CA03

1. Rugged and Durable EVA Material. Made of rugged and durable EVA material, this premium leather can effectively shield accidental collisions, dents, and scratches and has a waterproof/shockproof/dustproof function. The water and dust resistance of LOK-CASE01 is IP65 rating, which provides your jump starter a shield from splash, drips and moisture during outdoor activities.
2. Non-slip Handle. The non-slip handle makes it easy to keep your jump starter and accessories together and take them everywhere.
3. Functional Compartments. The top layer can hold accessories, and the bottom perfectly fits a jump starter.
4. Perfect Craftsmanship. Heavy-duty reverse coil zipper secures the case, a built-in reinforced handle, and reinforced stitching at stress points for durability.
5. Fit for: Specially designed for JA300/JA301/JA302/JA400/JA401/JA3000. The jump starter has a dedicated slot and is thoroughly protected.

Note: CASE ONLY. Jump starter NOT included.
