

Rear & Front camera interface VAG MIB & MIB2 (F-CAM/R-CAM)

Art. Nr: RC-VAG-MIBN

Rear & Front camera interface VAG MIB & MIB2 (VW / AUDI / SEAT / SKODA / PORSCHE)

Reverse camera Input - front and rear camera for MIB system and PCM4.0 in the Porsche

The kit allows the user to add front and rear cameras onto the OEM screen fitted in any of the VAG group cars with the MIB / MIB2.

Features:

- Front and Rear Camera input
- Auto-switching when reverse is selected
- Moving parking guideline
- PDC overlay (selectable if no sensors fitted)
- NTSC input
- Compact design for ease of install (Installation at the rear of the MIB Module)
- No programming required
- Works with both Hi and Low-resolution screens
