EXCLUSIVE CAR FEATURES

Features:

- XXXXXXXXXXXXX
- XXXXXXXXXXXXX
- XXXXXXXXX

CAMERA FEATURES

Picture in Picture (PiP)

Via the camera input of the interface an aftermarket camera system can be connected to the navigation system. The camera image will be displayed automatically on the screen when the car is put in the reverse gear. The camera input knows 2 views:

- 1: Camera with Picture in Picture of the Parking assist
- 2: Full camera view

Parking guidelines

In the camera image on screen parking guidelines can be displayed. This makes it much easier to determine the distance to the object you are driving towards. The guidelines are adjustable horizontal as well as vertical so the lines can be adjusted to the car.

Ajustable guide lines

Intelligent Park Assist System (IPAS)

The interface have also the Intelligent Park Assist System (iPAS). With this function the guidelines will respond on the steering wheel position. The guide lines are adjustable horizontal and vertical via the interface OSD menu.

Front camera input

The front camera input will be activated after leaving the reverse gear.

The camera will switch OFF automatically after 10 km/h or when you press the NAVI button.

NAVPLAY
