REQUIRTEMENT

COMPATIBILITY	Only compatible on cars with OEM Apple wired CarPlay function Please check the compatibility list before purchasing
USB	NAVplay AUTO support USB & USB-C
STEERING WHEEL BUTTONS	In some cases it may not be compatible with the steering wheel buttons or the car's OEM features.
BT CARKIT	You must connect your smartphone with the NAVplay Bluetooth if you want to use a carkit function. It is not possible to use the original one anymore when the NAVplay auto is connected.
INTERNET	Connect the NAVplay via Wifi hotspot or use the micro SIM slot for data. Please note that when you are using the CarPlay function, you cannot hotspot via Wifi to your phone. Please use in this situation the 4G micro SIM slot solution (DUAL SIM car is NOT compatible).
GPS	After installing the NAVplay AUTO please check the GPS signal. GPS reception may decrease depending on the surrounding environment. In some cases you can use the OEM GPS (must select "USE THE OEM GPS data").
INSTALLATION	Installation is plug and play
EXTRA NOTE	When you first connect the NAVplay AUTO module to the car, booting time takes about 2-3 minutes

NOTES

-Car must have original working wired Carplay function
-The car must have touch screen
-OEM Bluetooth carkit & NAVplay auto can be used at the same time
-4G SIM reader is included in the box.
-NAVplay auto works with video apps like; Netlifx, Youtube, Videoland, KPN, NLziet, Ziggo, etc.

-When you want to use NAVplay AUTO & Wireless carplay, you must add a data sim card.
-The user is responsible for any situations caused by the installation of illegal and malicious apps.
